

Cebu Ivy Education Center

CIEC “Managed” Program

CIEC Intensive Spartan Course

“Making Your Child’s World Better”

“Creating Leaders, Building Independence”

What is CIEC's "Managed" Program?

CIEC manages all students' study plans and campus life during their training at CIEC instead of their parents or guardians. The unique programs can be conducted by CIEC only in Philippines since it is a specialized educational center for Junior.

Please do not neglect your child's time to learn and improve their English because you, as a parent, will not be able to accompany your child to the school. CIEC will solve all your worries with the "Managed" program!

When do you need to choose CIEC's "Managed" Program?

- 1 In case **the students attend the program without their parent or any guardians** for various reasons
- 2 In case the parent want their children to **be managed expertly with effective academic management and well-organized weekend schedule and etc.**
- 3 In case the parent want to **develop their language ability and enjoy leisure activities at the same time during their stay** without being bound by their children's studies and campus life
- 4 In case parent are **hesitant to let their children attend a program because of their care and safety**

- Weekends Activities for Students without Guardian
- Stress Management for Junior Students to Study Successfully

CIEC “Managed” Spartan Weekends Activities(Example)

Other Reasons to Choose CIEC “Managed” Spartan Course

Learning Environment Students Can Focus on English

Students can maximize the effect of English learning under the “managed” learning environment which focuses on English through 9 classes daily as well as various activities with Filipino teachers and friends of many different nationalities.

Academic English Training like Debate, Writing and others

Students can build confidence on their English abilities by writing an essay and holding a debate, deviating from the strategies way of studying English focusing only on grammar and reading in their countries without an effective practice.

Cultivation of Independence and social grace through Group Life with Multinational Students

The course provide them with the opportunity to grow as a global talent by learning being independent and social with multinational friends at CIEC as well as understanding and respecting other cultures.

Strict Monitoring and 24 Security for the Students’ Life Management by Managers in Charge

Students can stay and enjoy their life at CIEC more safely and profitably since CIEC’s managers in charge will manage their studies and campus life starting from getting out of bed , doing morning exercises, going to bed , and attending weekends activities.

CIEC Feedback for Parents to Monitor Their Children’s Life in CIEC while at Home

Parents can trust the programs for their children since it provides them with daily feedback (comments, pictures, video clips, etc) on their study and life through SNS.

What Our Students Say

LEE MINWOO(Tony), KOREA

I have had lots of happy and satisfied moments, spending over one and one-half years at CIEC. There are two periods here, peak and non-peak seasons. First, in non-peak season, I can focus more on study and workout and reading books as there are not so many students. On the other hand, in peak season, it is a little bit noisy because of many people around the center, however, I have been able to make friends from various countries.

Staying friends from different nationalities, I have had time to communicate with them and share their cultures. Moreover, I can use many expressions in Chinese I have learnt in my school and my Chinese friends at CIEC and build up good memories with them by attending its weekends' activities. Parting with some friends who stayed here for a short term makes me sad always, but I keep bonding with them through SNS.

It is true that CIEC helps improve my academic achievement even though there have been tough moments. In particular, vocabulary test every weekend is a big help for improving my academic grades. All teachers in CIEC who have been together for a long time and led me responsibly are very kind and like reassuring friends of mine. There are many people I would like to thank, like Mr. and Mrs. Shin who cared a lot and Mr. Gary one of native teacher and Mr. Raymond who help me on my studies, Mr. Jerry who is kind and thoughtful, guides me onto the right path.

Thanks to CIEC, I am growing up, building up good memories. I will keep trying my best as CIEC believes and supports me.

What Our Student Say

CHANG YU TUNG(Katy), TAIWAN

I have stayed and studied in CIEC for 4 months. I can't forget the feelings during the moment when I arrived at CIEC because first, making Korean friends and learning about Korean culture is one of my great desires as I like Korea very much. During my stay at CIEC, I have been able to meet and pal around with many different nationalities' friends like Japanese, Korean, Chinese, Vietnamese, etc. I was not used to CIEC not allowing the students in this course to use their cellphone but only once a week; however, thanks to this policy, I have had more chance to get acquainted with other friends more and improved my English ability without being dependent of a cellphone.

In addition,, even though I am in this "managed" course without my parents, I would like to thank all CIEC managers from different countries who are very considerate and all CIEC teachers who are kind and help me study English here. With CIEC, I seem to learn a lot and experience different cultures as well as making more Korean friends is what I had been looking forward to.
